

THE POP PLAN

PEACE OF MIND ENSURED

All treatments performed at Cliniques Michel Pop include a follow-up period of 12 months. But did you know that you can extend your access to our personalized services for as little as \$89 per year?

The Pop Plan significantly reduces the cost of all additional treatments for a period of 12 months.

Whether you received:

- IntraLase® Lasik
- Wavefront Lasik or PRK correction
- Intraocular lenses
- Cataract surgery
- Prebyopia correction

A FULLY ADVANTAGEOUS PROGRAM

The Pop Plan offers many benefits at very little cost:

- Free preoperative tests for laser touch-ups.
- 10% discount on all other treatments at either of our clinics.
- One free consultation with our ophthalmologist as needed per 12-month period, for a savings of \$136 per consultation.
- Fast and effective eye care provided in a private clinic.

We will require your Quebec health insurance card (RAMQ) for the medical procedure when you meet with the doctor as well as for certain technical tests covered by the RAMQ.

QUICK AND EASY ENROLMENT

To sign up for the Pop Plan, simply complete the form (available on our website www.cmpop.com) and return it with your payment. When should you sign up? Within the final two months of your 12-month postoperative period following your initial surgery. For example, if your procedure took place on May 1, 2011, you should sign up for the Pop Plan between March 1, 2012 and May 1, 2012 (for a plan that is valid from May 1, 2012, to May 1, 2013). You can then renew your subscription on an annual basis.

For only \$89 per year — for one or both eyes — it's plain to see the Pop Plan offers plenty of rewards.
