

THE POP PLAN

PEACE OF MIND ENSURED

All laser vision corrections and intraocular lens treatments performed at Cliniques Michel Pop include a follow-up period of 12 months. After this period, we maintain coverage for the cost of any laser touch-ups. This means you won't pay for a single touch-up. Did you know that you can extend your access to our services for as little as **\$129 per year?**

The Pop Plan offers the following advantages:

- **Free pre-operative tests;**
- **Free regular vision tests;**
- **Annual examination by the ophthalmologist;**
- **10% off**, on any other treatment at our clinics.

The Cliniques Michel Pop are accredited by Accreditation Canada within the **Qmentum** program, ensuring a higher quality of care.

For only \$129 per year, the Pop Plan offers plenty of rewards.

Membership to the Pop Plan must take place on or before the first anniversary of surgery and must be renewed according to the same conditions. It will no longer be possible to join after this date, regular rates will apply.

In addition, for an emergency (not related to surgery), the Pop Plan includes the possibility of consulting Dr. Pop for as little as \$ 42 (a regular consultation represents fees starting at \$ 110).

Place your visual health in good hands

Our procedures are carried out by ophthalmologists **Dr. Michel Pop** and **Dr. Christian Perreault**. A certified ophthalmic assistant and licensed nurses complete our medical team. Our clinics are equipped with the latest technologies and most advanced surgical techniques that fully comply with North American sterilization standards.

Cliniques Michel Pop is proud to display the Specialized Medical Centre permit issued by the Ministère de la Santé et des Services sociaux du Québec.
